PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering student at Menoufia University with hands-on training in manual testing, test case design, defect reporting, and QA documentation. Completed the Digital Egypt Pioneers Initiative (DEPI) Software Testing & QA track and currently preparing for ISTQB CTFL v4.0. Seeking an entry-level Software Tester or QA role where I can support product quality through structured test execution, clear bug reports, and continuous learning.

CORE SKILLS

Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Black-Box Testing

QA Execution: Test Case Design, Test Execution, Bug Reporting, Bug Lifecycle, STLC, SDLC

Techniques: Equivalence Partitioning, Boundary Value Analysis, Input Validation, Edge Case Testing

Tools: Excel, Google Sheets, Jira, Postman, Git, GitHub

Programming: Python, Java, C++

PROJECTS & PRACTICAL EXPERIENCE

DEPI - Software Testing & QA Training | 2026

- Completed structured QA training focused on manual testing, test case design, bug reporting, and QA documentation.
- Practiced organizing test scenarios and documenting defects in a clear format aligned with entry-level QA workflows.

Manual Testing - University Software Project | 2026

- Designed and executed 20+ manual test cases using equivalence partitioning and boundary value analysis.
- Documented defects with severity, reproduction steps, expected vs. actual results, and pass/fail status in Excel.
- Tested input validation, UI behavior, and edge cases; prepared a test plan outline, test case log, and bug report template.

Software Development Projects - Java & C++ | 2025

- Built console-based applications involving linked lists, stacks, queues, and algorithm exercises.
- Performed debugging, input/output validation, and code tracing, strengthening defect identification and logical analysis skills.

EDUCATION

Bachelor of Engineering in Computer Engineering

Faculty of Engineering, Menoufia University | 2023 - Expected 2028 | GPA: 3.4/4.0

Relevant Coursework: Software Engineering, Data Structures & Algorithms, Computer Networks, Programming Fundamentals

CERTIFICATIONS & TRAINING

- Digital Egypt Pioneers Initiative (DEPI), Software Testing & QA Track | 2026
- Effective Test Case and Bug Report Writing Techniques, ITI / Mahara-Tech | 2026
- Cybersecurity Professional Certificate, EFE Institute (IBM-supervised) | 2025
- Programming Basics, EFE Institute | 2025
- CCNA Networking Basics, Self-Study (IT Does channel) | 2025
- Google IT Security, Coursera coursework | 2025
- AWS Cloud Foundations | In Progress
